PROJECTS

Portfolio Website | *React, Vite, TailwindCSS*

Jan 2025 – Mar 2025

- Built interactive project showcase with hover effects and dynamic content
- Integrated contact form with form submission handling
- Created responsive design using TailwindCSS that works seamlessly across all devices

Property Rental Website | *React, MongoDB, NextAuth, Prisma*

Sep 2024 – Dec 2024

- Built a full-stack web app with React for the front end and MongoDB for data storage.
- Implemented user authentication using NextAuth for secure login/signup functionality.
- Designed a responsive UI for seamless property browsing and uploading.
- Deployed on Vercel; optimized API endpoints to reduce latency by 20%.

Github API | *React, Vite, REST API, TailwindCSS*

Mar 2024 – Aug 2024

- Created an interactive API showcase component with advanced filtering and sorting capabilities for GitHub repositories
- Implemented a dynamic GitHub integration system that fetches and displays real-time repository statistics, including stars, forks, and commit history
- Built a custom theme system with dark/light mode support using React Context API and TailwindCSS

Project Management Dashboard | *React.js, TailwindCSS, JavaScript, Firebase Firestore*

Jan 2023 – May 2023

- Implemented secure user authentication system with email/password login and registration
- Dynamic State Management using React Hooks to update the interface without page reloads.
- Responsive UI built with TailwindCSS for a modern and clean design
- Built a team management system with role-based assignments (developers, designers, managers)

Cube Shooter | *Github, Unity, C Sharp*

Dec 2022 – Feb 2023

- Developed an interactive 3D cube destruction game using Unity and C# featuring physics-based interactions
- Implemented WebGL deployment for cross-platform browser compatibility, enabling instant play without installation

Frogger Game | *Github, Unity, C Sharp*

Sep 2022 – Nov 2022

- Spearheaded the development of an engaging game using Unity and C Sharp scripting.
- Game retains and stores player information
